

Opmeting van uw overgordijnen

B : De breedte van het raam. Dit kan de lengte van de rail in een afkassing of de lengte van een stok zijn.

H : De afgewerkte hoogte van overgordijn. Dit is de maat van onderaan de rail, de ring of de stok tot 1 cm van het tablet of 2 cm van de grond.

B :

H :

A diagram of a window with three vertical panes. A horizontal line is drawn across the top of the panes, and a vertical line is drawn on the left side, extending from the top line down to the bottom of the window frame. This forms a large rectangle on the left side of the diagram, representing the measurement area for height (H) and width (B).
